

Kingscote Parish: Household Emergency Plan Proforma

Emergencies occur with little or no notice. Being prepared can help reduce the effects on your families' lives, reduce the need for support from others and enable you to support the vulnerable in your community.

Disruption to essential services such as electricity and water, telecoms and to regional and national travel are all ways an emergency can affect our everyday lives.

Complete the following sections and keep in a safe place all your household can easily access

If you or your house are not involved in an emergency incident but you are close by or believe you may be in danger, in most cases the advice is: **GO IN, STAY IN, TUNE IN**. Naturally this advice does not apply if your house is affected by an emergency such as fire or flooding.
